

emporium skin analysis & consultations

A skin analysis and consultation is required prior to any of our skin care treatments to establish the condition of your skin. In turn this will allow us to discover your skin improvement goals and recommend accurate advice on our skin care treatments, monitor results of treatments and recommendations on your homecare regime.

Face Mapping	1/4hr £20
--------------	-----------

Dermalogica face mapping with Chinese diagnosis combined with our expert skin analysis will establish details of your skin condition and health.

(Complimentary when booked with a facial)

Skin Scanning	1/2hr £30
---------------	-----------

An innovative skin analysis system which will magnify images of your skin enabling us to demonstrate your skin condition by means of a computerised visual skin analysis.

(Redeemable against a course of facials)

emporium skin care treatments

Our extensive skin care treatments range from traditional, conventional, holistic, cosmeceutical and high tech procedures to ensure you find the treatment to suit you and your skin's requirements. We can successfully treat and improve skin conditions such as active acne, acne scars, milia, oily, dry, dehydrated, pigmentation, sun-damaged, ageing, rosacea, vascular and sensitive or simply maintain healthy skin.

Diversity

All of our skin treatments are suitable for the face, back, chest, legs, arms and hands.

Men Specific

All of our skin treatments are suitable for men's skin with focus on ingrown hairs and soothing shaving bumps.

Emporium Bespoke Treatment	1hr £70
----------------------------	---------

Our skin care therapists will tailor-make a facial or body treatment to suit your skin's requirements. Whether you want a conventional, holistic, cosmeceutical or to combine high tech with traditional procedures, we can create a treatment specifically for your needs, to give you the ultimate in personalised skin care.

Dermalogica Bespoke Treatment	1hr £55
-------------------------------	---------

The dermalogica product range offers an advanced, versatile cosmeceutical skin treatment with holistic and traditional procedures. We will tailor-make a facial or back treatment to suit your skin's requirements which will deliver results whatever your skin type and concerns.

Green Peel Skin Resurfacing	1/2hr £300
-----------------------------	------------

This natural skin peel treatment will stimulate an intense 5 day peeling process finished with a post peel treatment which will reveal a new healthy skin. Outstanding success in treatment of wrinkles, premature ageing of the skin, acne, acne scars, enlarged pores, poor circulated tired skin, sun-damage, discolouration, pigmentation and stretch marks. A consultation is essential to plan this into your lifestyle. A 1hr peel treatment, 1hr post peel treatment and products are inclusive.

Mini Green Peel	1/2hr £45	x5 £191
-----------------	-----------	---------

A diluted method of the green peel skin resurfacing treatment that offers benefits of the herbal skin treatment without the intense peeling process or the homecare products. This treatment offers amazing benefits such as deep cleansing, exfoliation, detoxification, anti-bacterial and anti-inflammatory benefits to breakouts. It will offer instant skin rejuvenation with a firm, bright and healthy skin complexion. A series of treatments are recommended to aid skin resurfacing benefits such as improving breakout activity, enlarged pores, pigmentation, sun-damage and signs of ageing.

Micro-Dermabrasion	1/2hr £45	x5 £191
--------------------	-----------	---------

A mechanical skin resurfacing treatment using crystals and a gentle vacuum action to lift and remove dull, dead skin cells layer by layer; achieving immediate deep exfoliation, lymphatic drainage, reducing toxins and bloating in the skin. The skin will instantly become taut, smooth, fresh and bright. Regular treatments offer excellent benefits for open pores, surface blackheads, blemish scars and stimulates collagen and elastin formation improving ageing skin, fine lines, wrinkles resulting in a firmer and more rejuvenated skin.

Steam & Pore Extraction	1/2hr £35	x5 £149
-------------------------	-----------	---------

This process must be carried out after an exfoliation treatment; Mini Green Peel or Micro-dermabrasion to exfoliate the surface skin blockage. A softening solution is applied to the skin congestion and placed under steam, this will prepare the skin for extraction and removal of deep comedones such as excessive oil blockage, blackheads and breakouts.

Milia Extraction	1/4hr £25
------------------	-----------

Milia will appear on the skin as white pearly bumps. They can be removed by inserting a lance needle to break through the milia membrane allowing us to extract and release the sebaceous matter.

We do use disposable sterile needles for this process.

Oxygen Facial	1/2hr £45	x5 £191
---------------	-----------	---------

Breathe new life into tired, dehydrated and wrinkled skin with our specialised oxygen therapy machine. The oxygen therapy along with active ingredients in the serum replenishes lost oxygen, re-energising skin cells and reversing free radical damage. This will also restructure and plump out tired, dehydrated skin, fine lines & wrinkles. Regular treatments stimulate the production of new collagen and elastin cells which will help to create volume within the bio-matrix of the skin. This treatment also offers calming, healing benefits for eczema, acne and sensitive skin. This will complete any of our skin care treatments.

emporium non-surgical face lift treatments

CACI	1hr £55	x10 £460
------	---------	----------

Originally established in the medical field, the micro-current treatment has gained its reputation as a safe and painless, non-surgical, anti-ageing cosmeceutical treatment. The facial muscles tighten and tone and the skin appears firmer whilst the fine lines and wrinkles are plumped out and softened.

A course of 10 treatments is highly advised for maximum results.

Ultratone Pro 20	1/2hr £38	x10 £280
------------------	-----------	----------

This unique micro-technical treatment transmits biologically coded electrical impulses via the skin surface directly to the muscles, skin's connective tissue, circulatory and lymphatic systems. This amazing treatment achieves an effective lifting and firming of the eyes, face and neck. In addition the collagen and elastin fibres are rejuvenated and strengthened which coupled with the lift reduces fine lines and wrinkles.

A course of 10 treatments is highly advised for maximum results.

emporium nlite laser treatments

Laser consultation is essential prior to taking any of the laser treatments.

A brief telephone consultation will enable us to assess that you are eligible for a full consultation and a test patch.

Nlite Collagen Rejuvenation

Nlite is a revolutionary, non-invasive laser device programmed to stimulate the production of natural collagen within the skin by up to 80%. The light energy selectively targets dermal structures, whereby it can be 'tricked' into producing new collagen in response to the perceived injury. It takes no more than 30 minutes to treat the full face and the skin instantly feels plumped, fresh and glowing.

The results are progressive over a series of treatments as the new collagen and elastin molecules have to mature into a well organized matrix which in turn creates volume from within the skin, plumping out fine lines, wrinkles and acne scars, along with overall improvements in skin tone, sun damage, ageing skin and redness.

This treatment works best when used in conjunction with skin resurfacing treatments and products.

Area	Single	Course 3
Test Patch & Consultation	£30.00	
Full Face	£250.00	£600.00

Mouth	£150.00	£360.00
Hands	£250.00	£600.00

Nlite Acne Treatment

This revolutionary non-invasive direct laser device is programmed to relieve the symptoms of active acne. The light energy is delivered to effected areas of the skin killing the bacteria that cause the acne infection. At the same time, Nlite triggers an immuno-response to the acne causing bacteria to help prevent further acne breakouts and maintaining improvements within the skin long term. Additionally, it reduces any associated scarring by stimulating new collagen and elastin thus reconstructing the matrix in the deeper layers of the skin plumping out the acne scars. This treatment works best when used in conjunction with skin resurfacing treatments and products.

Nlite Vein Removal

This revolutionary non-invasive direct laser device is programmed to destroy and breakdown vascular lesions within the skin. Immediately after the laser application the skin will appear inflamed with red dotted bruising over the vascular lesion; this is part of the skin's defense system to deal with the destruction and removal of the lesion. The healing process can vary from 10 to 20 days depending on the type of vascular lesion and location on the face or body.

emporium IPL laser skin treatments

IPL Photo Skin Rejuvenation

IPL photo skin rejuvenation is a non-invasive light device specifically programmed to destroy pigmentation and fine vascular lesions. This process will break down the melanin and capillary walls into microscopic particles allowing the body to eliminate them via the body's natural defence system. This treatment will also produce a 40% increase in collagen reducing fine lines and replenishing moisture loss.

A consultation will determine a programme plan depending on your concern. Courses are available at a discounted rate.

IPL Permanent Hair Reduction

Laser consultation is essential prior to taking any of the laser treatments. A brief telephone consultation will enable us to asses that you are eligible for a full consultation and a test patch.

A non-invasive light therapy device is delivered via the skin to the follicles where hair is produced; it will destroy the proteins and blood supply surrounding the follicles which over period of treatments will in effect stop the production of hair. The number of treatments varies from 6 to 12 depending on your hair colour, location on the body and hormonal implications.

Vibro-Gym Therapy	1/4hr £12	x10 £100
-------------------	-----------	----------

Standing on the VibroGym generates vibrations that are transferred to your body exercising a multiple of muscles to 100% in comparison to conventional training methods which only reach 40-60%; making this far more efficient than conventional exercise. In just 12 minutes you can complete training of your entire body along with stimulation of the circulatory, lymphatic and hormonal systems to improve overall fitness, mobility, flexibility, co-ordination, bone density, cellulite and a feeling of wellbeing. An induction will establish a personalised programme plan specific to suit you.

Ultratone Pro 20	1/2hr £38	x10 £280
------------------	-----------	----------

This unique micro-technical treatment transmits biologically coded electrical impulses via the skin surface directly to the muscles, skin's connective tissue, circulatory and lymphatic systems. This amazing treatment achieves an effective lifting and firming feeling of the buttocks, thighs, hips, waist, arms and bust. The collagen and elastin fibres are rejuvenated and strengthened in the skin whilst the lymphatic drainage improves cellulite. A course is highly advised to achieve long term results.

Universal Contour Body Wrap	2hrs £64	x3 £155
-----------------------------	----------	---------

An excellent treatment used to exfoliate and cleanse your skin, detoxify your body, tighten loose skin tissue and guarantees you exceptional and lasting inch loss. It is excellent for reducing the appearance of cellulite and stretch marks. The treatment works by wrapping warm mineral enriched bandages to the entire body using a specific technique that lift and shape the body and flattening bulges, whilst the sea clay solution cleanses and purges the body of toxins that are stored between the fat cells. Guaranteed to loose a minimum of 6 inches on your first wrap.

Ultra-sound Fat Buster	1hr £70	x10 £520
------------------------	---------	----------

Ultra-sound is a heat vibration massage which is applied to the skin via a warm massage probe. This non-invasive technique will aid the breakdown of stubborn fatty deposits. The disposal of the broken down fatty deposits is enhanced by applying the emporium custom blend of essential oils designed specifically to combat toxic waste along with our signature lymphatic massage. Excellent results in reducing and re-sculpting out of proportion fatty areas typically the buttocks, thighs, stomach, hips and the back of the upper arms, also reduces stubborn cellulite.
